OUR COMPANY

OKASA Promotion believes in making every gift an unforgettable experience - "Love at First Gift."

We are not just a company, we are a mission. Our mission is simple yet powerful - to inspire love, connection, and joy through the art of gifting.

Our identity is defined by our commitment to provide sustainable products to our customers which will end up being part of their everyday life.

Our customer profile is filled with individuals who cherish meaningful gifting experiences and appreciate carefully designed products. Understanding our customers' needs and wants allows us to make their gifting moments more special.

Our brand positioning sets us apart in the world of gifting. We are not just any other supplier. Our success is coming from our experience and our existence in this industry for over 20 years.

We value uniqueness, elegance, and high customization skills to help our clients reach more potential customers and extend their brands and their customer network.

Finally, we uncover the heart of our brand - our very core. We are a team of dedicated designers, dreamers, and believers in the power of gifting to kindle love and create lasting connections.

"Love at First Gift" is not just a slogan; it's a promise, and our core embodies this promise in everything we do.

Manufacturing Process

The green tea residue cork composite material is mainly composed of natural green tea residue and cork. The green tea residue is the part remaining after tea leaves are soaked and other treatments, and it is rich in components such as tea polyphenols. Cork is obtained by peeling the bark of *Quercus suber*, and it has characteristics such as good elasticity and low density.
